

Atli Örvarsson

COMPOSER

From historical epics to courtroom drama to tales of the supernatural, Icelandic composer Atli Örvarsson has provided innovative scores to tell all of these stories. Atli's talent, experience, versatility, and skill combined with his Icelandic roots has produced an individualised and compelling style that contributes to his success as a musician and composer. His credits include orchestrating and contributing music for some of Hollywood's biggest projects, including the *Pirates of the Caribbean* series, *Angels and Demons* and *Man of Steel*.

As a composer, Atli displays musical diversity throughout his action-film scores in *The Eagle*, *Vantage Point*, *Babylon A.D.*, the Morgan Freeman caper *Thick as Thieves*, *The Fourth Kind*, and the Nicolas Cage medieval fantasy *Season of the Witch*. His most recent credits include *The Edge of Seventeen* starring Woody Harrelson, *Bilal: A New Breed of Hero*, *The Mortal Instruments: City of Bones*, the dark and edgy film *Hansel and Gretel: Witch Hunters*, the drama/thriller *A Single Shot* starring Sam Rockwell, and the hit NBC series *Chicago Fire* and *Chicago PD*. Current projects include *The Hitman's Bodyguard*, starring Ryan Reynolds and Samuel L. Jackson, the remake of the 1990s thriller *Jacob's Ladder*, NBC's *Chicago Justice*, and the upcoming animated feature *PLOEY*.

Originally from the small town of Akureyri, Atli Örvarsson became established in the local music scene at a young age. He earned three platinum and two gold records as a member of the Icelandic band *Salin hans Jóns mins* before studying film composing at Berklee College of Music and the North Carolina School of the Arts. He excelled in composing and was awarded the Pete Carpenter Fellowship, which brought him to Los Angeles. He began working alongside TV veteran Mike Post on *NYPD Blue* and three *Law and Order* brands. Soon after that, Atli met composer Hans Zimmer, who extended an invitation to join his team at Remote Control Studios. Atli's accolades include several ASCAP & BMI Film & TV Music Awards and he was nominated for the prestigious World Soundtrack Academy's "Discovery of the Year Award" for his score for *Babylon A.D.*
